Towing Hitch, Ball Platform & Wire Harness

\$1,197.25

This Towing Hitch system is specifically manufactured for the RAV4, and has been engineered to obtain the vehicle's safest maximum tow rating. For ease of use, the Towing Hitch Platform has been custom designed to accommodate the height of the vehicle with conventional towing. All Toyota Hitch Systems are e-coated and powder coated to prevent rust and corrosion and they are designed to meet or exceed all industry towing standards. The Towing Hitch Wire Harness (4-pin flat connector) features high-quality plug-in connectors specific to RAV4 that fulfill all the electrical needs required for towing. Additionally, to ensure seamless taillight and turn signal operation, the harness features an independent electronic module that safely integrates with the RAV4's electrical system. Please note: modification of the rear bumper is required for the RAV4 Towing Hitch accessory. Installation of a tow hitch receiver or other accessories located near the rear bumper may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. Please consult with your dealer for further details.
